

Portable Hospital Rooms

**Fast, affordable,
medical-grade
partitions to meet
COVID-19 surge and
other emergency
demand**

As our nation's hospitals struggle with patient capacity during the COVID-19 pandemic, Diversified Fall Protection has stepped forward to create a portable, modular system for quick installation of temporary hospital rooms. Our innovative solution is affordable and convenient, allowing for the rapid deployment of patient care no matter the setting.

Elevating safety standards

FallProtect.com

Details

- Accommodates standard 36" x 84" and 54" x 96" patient beds
- Portable, modular partition design allows you to connect additional compartments, reduce the use of materials, and create a smaller overall footprint
- Unistrut® metal frames are durable, sturdy, and strong
- Walls are made of medical-grade, flame-retardant fabric that hang quickly with grommets and quick-connect loop ties
- Optional top rails available for hanging light fixtures and supplies
