

## EZ Ladder Guard

The quick, simple, secure way to prevent unauthorized ladder access

Reduce the risk and liability associated with unauthorized ladder use with the lightest, longest-lasting, easiest installing ladder guard on the market. Made in the USA of 5052 aluminum, the EZ Ladder Guard is designed to eliminate pinch points associated with hinged, enclosure style ladder guards. EZ Ladder Guard is durable, weatherproof and compatible for use with all ladder lifeline systems. Simply hook over a rung and securely lock in place for restricted access.

### Compatible with most ladders

Available in two styles to fit most commercially available ladders:

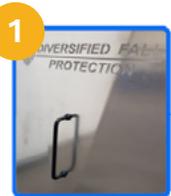

FL-LGEXIST-02:

- Dimensions 78" high x 15" wide x 0.125" thick
- Material: 5052 aluminum
- Weight: 16 lbs

FL-LGDFP-02:

- Dimensions 78" high x 18" wide x 0.125" thick
- Material: 5052 aluminum
- Weight: 18 lbs
